Navigation and Comfort

Convenient Bench

Information and navigation LCD panel

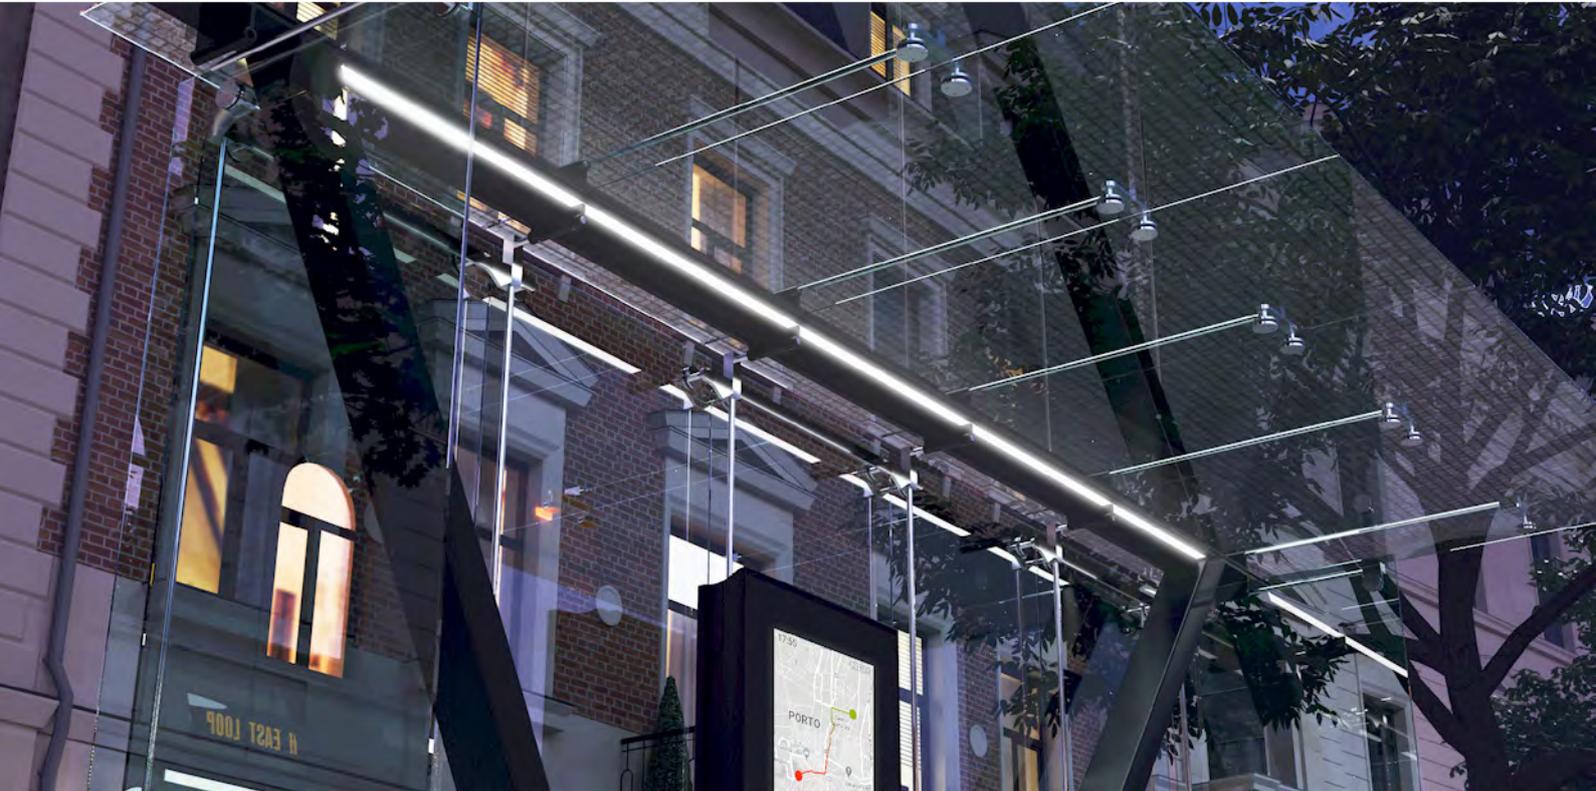

brightness up to 3,000 candelas, with touchscreen (from 21.5 to 55 inches), the ability to install an “alarm button” for communication with emergency services and USB panel for charging mobile devices. The LCD screen can display a city map to find convenient routes or any other information.

The possibility to build a route from the starting point to the final address (theatres, parks, shopping and entertainment centers, etc.).

Integrated sound system

Roof Backlight

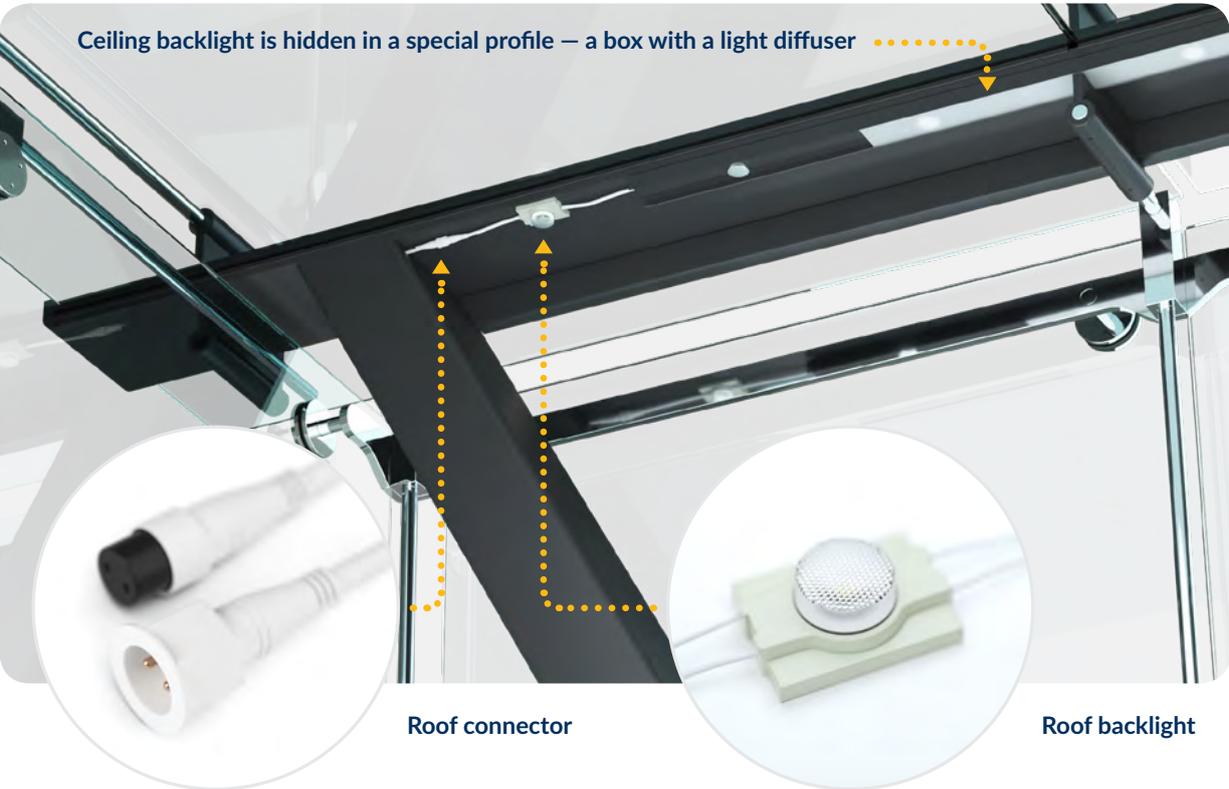

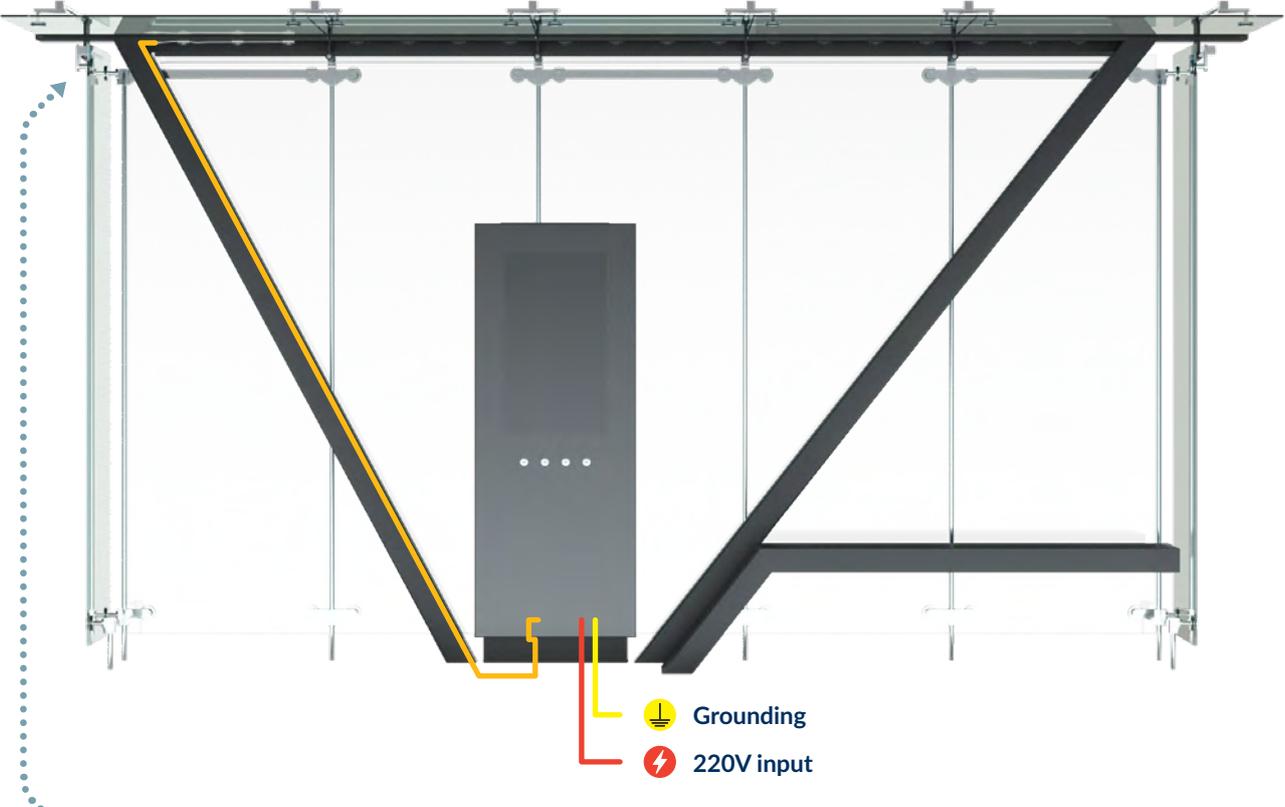

Hardware Furniture

Electrical equipment

Wire to roof backlight

Electrical equipment

Energy meter

Assembling

A. Foundation

- Paving stone
- Sand and cement mix
- Sand
- Gravel
- Soil

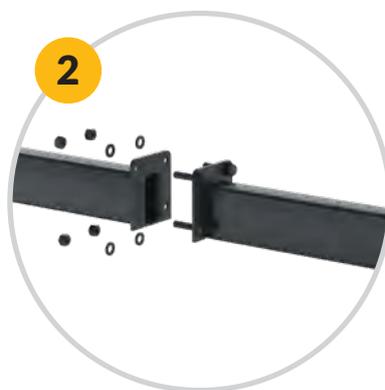

Assembling

A. Foundation

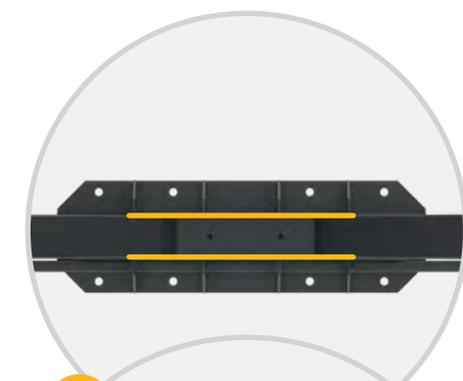

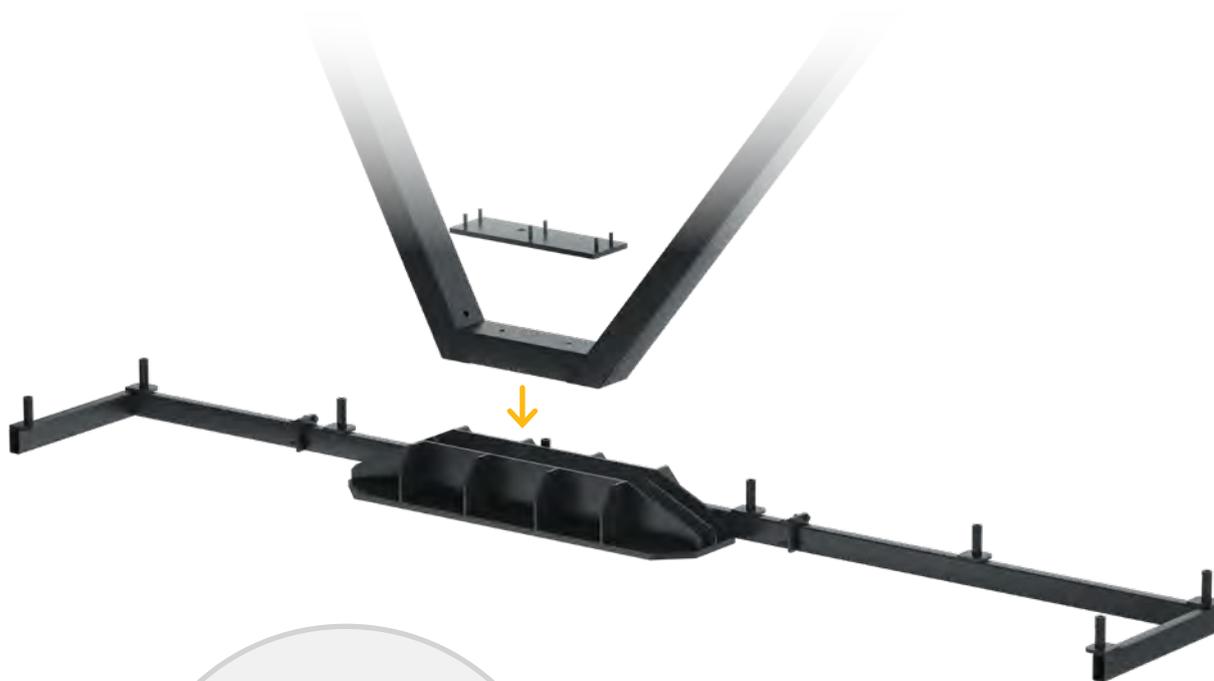

Assembling

B. Frame – Bolting

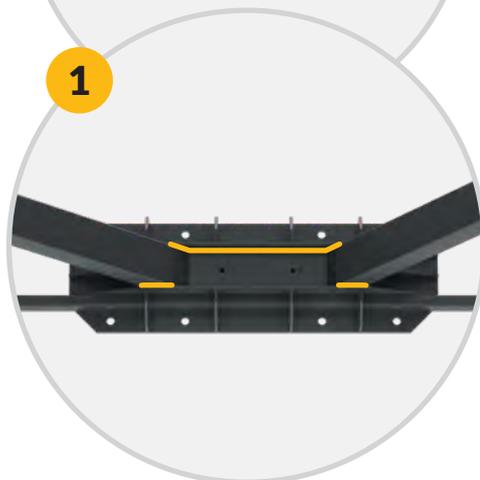

Assembling

C. Frame — Welding

1

2

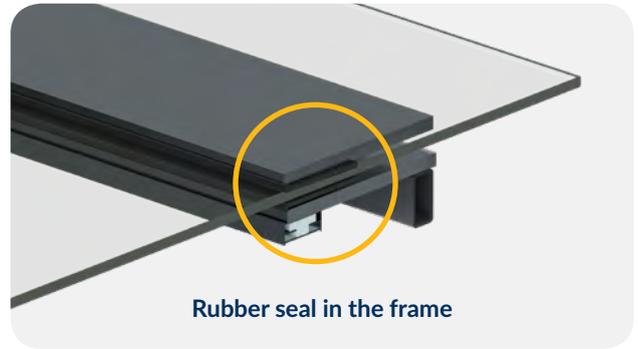

Assembling

C. Frame — Welding

Assembling

D. Roof

1 Installation of top fasteners

2 Glass mounting

3 Installation of lower mountings

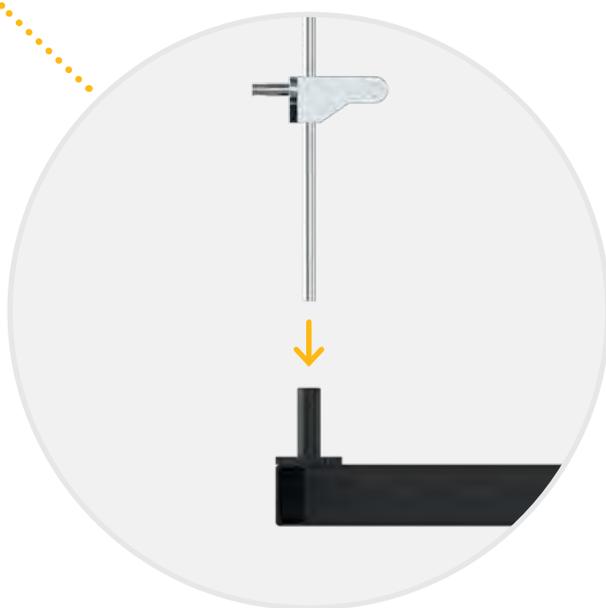

Assembling

E. Walls

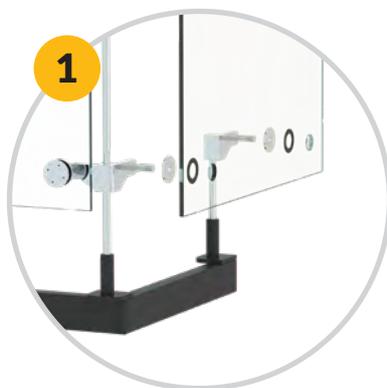

The equal distance between slots makes assembly easier

Assembly of rods

Delivery

Two cases of delivery are possible:

1

The First case Considering of two trucks

24
Bus Shelters

24
LCD

In this case welding works on the bus shelter assembly by means of a customer are excluded. The bus shelter is delivered as a more finished product.

Generally, it presumes supply of 12 bus shelters per one truck, so 24 bus shelters, 24 information panels and some other smaller products can be accommodated in two trucks.

Order quantity

650 sets of bus shelters
+ information panels

1 set

1 bus shelter + 1 information panel
+ some other smaller products

12 sets × 55 trucks = 660 pcs.

It covers order quantity, allowing for placement of another products

Total approximate quantity

55 trucks

Delivery

Two cases of delivery are possible:

2

The Second case Considering of two trucks

30
Bus Shelters

50
LCD

The second option presumes welding works on the connection of a frame and foundation of a bus shelter by efforts of a customer.

According to this option, an accommodation in two trucks of 30 bus shelters (the first truck), 50-60 information panels and some other smaller products (the second truck) is possible.

30 bus shelters × 22 trucks =
660 pcs. of bus shelters

50 information panels × 13 trucks =
650 pcs. of information panels

Total approximate quantity
is 22 + 13 = 35 trucks

Summary

Approximate profit is 20 trucks

More accurate calculation
depends on the final order

Delivery

Euro Trailer 92 m³

Standard tent semi-trailer with a flat floor

| | | | | | | |
